

## SUMMARY

Highly motivated entry-level software engineer with 2 years of experience in frontend development, skilled in creating responsive and interactive web applications, and passionate about collaborating in agile development teams to deliver high-quality products.

## EXPERIENCE

### Frontend Developer

VantaLabs, 2022–Present

- Designed and implemented responsive UI components using React and CSS, resulting in a 30% increase in user engagement
- Collaborated with the backend team to integrate RESTful APIs and improve data fetch times by 25%
- Participated in code reviews and contributed to the improvement of the codebase, reducing bugs by 40%
- Mentored junior developers in best practices for frontend development and helped them improve their coding skills

### Junior Frontend Developer

HealthNet AI, 2020–2022

- Built and maintained multiple frontend applications using Angular and JavaScript, ensuring cross-browser compatibility and accessibility
- Worked closely with the design team to implement new features and improve the overall user experience, resulting in a 20% increase in customer satisfaction
- Developed and implemented automated testing scripts using Jest and Enzyme, reducing testing time by 50%
- Contributed to the development of a technical blog, sharing knowledge and best practices with the developer community

## PROJECTS

### Personal Website

Personal Project, 2022

- Designed and built a responsive website using HTML, CSS, and JavaScript, featuring a portfolio of projects and a blog
- Implemented a contact form using Node.js and Express, allowing visitors to send messages and receive responses
- Deployed the website on a cloud platform, ensuring high availability and scalability

### To-Do List App

Personal Project, 2021

- Built a fully functional to-do list app using React and Redux, featuring user authentication and data persistence
- Implemented features such as due date reminders and task prioritization, improving user productivity
- Deployed the app on a cloud platform, allowing users to access their to-do lists from anywhere

## TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS  
Frameworks: React, Angular, Vue.js  
Cloud: AWS, GCP, Azure  
Tools: Git, Docker, Jenkins  
Databases: MongoDB, MySQL, PostgreSQL  
OS: Windows, Linux, macOS

## EDUCATION

Master's Degree in Computer Science, Stanford University, 2020  
GPA: 3.5/4.0  
Relevant Courses: Data Structures, Algorithms, Computer Systems, Web Development  
Thesis: "Improving Web Application Performance using Caching and Content Delivery Networks"  
Bachelor's Degree in Computer Science, University of California, Berkeley, 2018  
GPA: 3.2/4.0  
Relevant Courses: Introduction to Computer Science, Data Structures, Computer Systems, Web Development
