

SUMMARY

New Graduate Software Engineer with a strong foundation in Frontend development, proficient in ensuring cross-browser compatibility, and eager to apply skills in a professional setting to deliver high-quality web applications.

EXPERIENCE

Frontend Developer Intern *VantaLabs, Summer 2022*

- Contributed to the development of a responsive web application using React, ensuring seamless user experience across various browsers and devices
 - Collaborated with the design team to implement a new UI component library, resulting in a 25% reduction in development time for new features
 - Participated in code reviews and implemented feedback to improve code quality and maintainability
-

PROJECTS

Personal Website *Personal Project, 2022*

- Designed and developed a personal website using HTML, CSS, and JavaScript, showcasing skills in responsive web design and cross-browser compatibility
- Implemented a custom CSS framework to ensure consistency in styling across different browsers and devices
- Deployed the website on a cloud platform, ensuring high availability and scalability

To-Do List App *Academic Project, 2021*

- Built a To-Do List App using React and Redux, demonstrating understanding of state management and component-based architecture
 - Implemented features such as user authentication, data persistence, and real-time updates, using Firebase and WebSockets
 - Conducted unit testing and integration testing to ensure the app's functionality and reliability
-

TECHNICAL SKILLS

TECHNICAL SKILLS Languages: JavaScript, HTML, CSS Frameworks: React, Angular, Vue.js Tools: Git, Webpack, Babel Databases: MongoDB, Firebase OS: Windows, macOS, Linux Browsers: Chrome, Firefox, Safari, Edge

EDUCATION

B.S. in Computer Science, University of Texas at Dallas, 2022 GPA: 3.5/4.0 Relevant Courses: Data Structures, Algorithms, Computer Systems, Web Development, Human-Computer Interaction Thesis: "A Study on Cross-Browser Compatibility in Modern Web Applications"
